PUBLIC NOTICE

CONSTRUCTION WORKS FOR HENDERSON 2MW SOLAR FARM PROJECT

Solomon Power would like to inform the public that construction work for the Henderson Fighter 1 solar farm expansion project will start on Monday, October 16, 2023. The site is located at Henderson, East Honiara, south of Honiara International Airport.

The Henderson Fighter 1 solar farm expansion project aims to add two Megawatts (2 MW) to Solomon Power's existing 1 Megawatt solar farm in Henderson and is crucial for achieving our commitment to expand the renewable electricity footprint and provide electricity access to all Solomon Islanders by 2050. The additional generation capacity will be grid-connected inverter-based, connected to the spare circuit breakers at the existing connection transformer.

The construction works will take place over a period of 3 months. There will be measures taken to make sure that workers and members of the public are not at risk of harm as a result of the construction activities.

If you have any questions or concerns about the project, please contact the Project Manager on phone 42461 or George.Kikolo@solomonpower.com.sb.

We appreciate your patience and cooperation while we carry out these works.
