## NEW CHARGES FOR SUPPLY OF ELECTRICITY EFFECTIVE 1 AUGUST 2025

In accordance with the **Electricity Act (Cap. 128)** and the **Electricity (Charges for Supply) Regulations 2025**, the electricity tariffs have been reviewed and new rates of charges for the supply of electricity take effect on 1st August 2025.

**Charges:** The rates of charges payable for the supply of electricity on and from 1st August 2025 are as follows:

| <b>Prepaid Customers</b>   |                          |                        |                            |                                    |
|----------------------------|--------------------------|------------------------|----------------------------|------------------------------------|
| <b>Customer Categories</b> | <b>Consumption Block</b> | <b>Non-Fuel Charge</b> |                            | <b>Total Energy Charge SBD/kWh</b> |
|                            |                          | <b>SBD/kWh</b>         | <b>Fuel Charge SBD/kWh</b> |                                    |
| Domestic                   | < 50 kWh                 | 3.16                   | 2.51                       | 5.67                               |
| Domestic                   | 50 - 200 kWh             | 3.69                   | 2.51                       | 6.20                               |
| Domestic                   | > 200 kWh                | 4.22                   | 2.51                       | 6.73                               |
| Commercial                 | All                      | 3.17                   | 2.51                       | 5.68                               |
| Industrial                 | All                      | 3.03                   | 2.51                       | 5.54                               |

| <b>Postpaid Customers</b>  |                          |                        |                            |
|----------------------------|--------------------------|------------------------|----------------------------|
| <b>Customer Categories</b> | <b>Consumption Block</b> | <b>Non-Fuel Charge</b> |                            |
|                            |                          | <b>SBD/kWh</b>         | <b>Fuel Charge SBD/kWh</b> |
| Domestic                   | < 50 kWh                 | 3.16                   | 2.51                       |
| Domestic                   | 50 - 200 kWh             | 3.69                   | 2.51                       |
| Domestic                   | > 200 kWh                | 4.22                   | 2.51                       |
| Commercial                 | All                      | 3.17                   | 2.51                       |
| Industrial                 | All                      | 3.03                   | 2.51                       |

| <b>Non - Regular Customers</b> |                          |                      |                            |
|--------------------------------|--------------------------|----------------------|----------------------------|
| <b>Customer Categories</b>     | <b>Consumption Block</b> | <b>Demand Charge</b> |                            |
|                                |                          | <b>SBD/kW/month</b>  | <b>Fuel Charge SBD/kWh</b> |
| Domestic                       | All                      | 1,091.02             | 2.51                       |
| Commercial                     | All                      | 1,091.02             | 2.51                       |
| Industrial                     | All                      | 1,091.02             | 2.51                       |

For August, the Non Fuel Charge increased by an average of 0.6% compared to July, while Fuel Charge increased by an average of 3.2% respectively . The overall Energy Charges as compared to July increased by 1.7% due to increase in Foreign Exchange rate (SBD/USD) and overseas Producer Price Indexes (PPI) compared to their base months.
